Connector Components Inserter

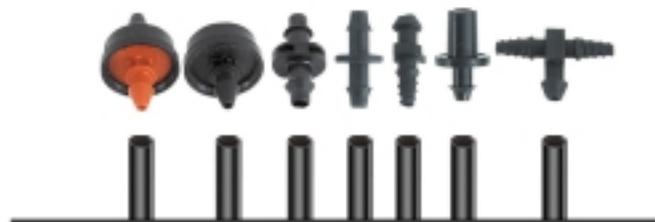

The ideal solution for inserting connector components, drips or sprinklers into 5/3 or 7/4 spaghetti piping.

Suitable for gardeners, garden owners, garden contractors and agriculturalists

Operation Instructions:

- ▶ Choose the right-sized hole in the drum for your connector component and by pulling the drum down and turning it, align it with groove in the grips. Release your hold on the drum and it clicks into place.
- ▶ Place the tip of the connector component into the piping and fit in position in the tool. By squeezing the handles of the tool the connector component is pushed firmly into the piping.
- ▶ At the base of the tool is a cutting blade for cutting the spaghetti piping to its' required length.

Cat. No. | There are two models available:

- | | |
|--------|---|
| ST-5/3 | The tool with the yellow drum for 5/3 piping. |
| ST-7/4 | The tool with the green drum for 7/4 piping. |

By special order the tool can be adapted to suit different connector components.
